

**Request for Proposals (RFP)**  
**New/Unused Generator adhering to the following criteria**  
**For the City of West Point, Georgia**

**Proposal Deadline November 11, 2016 at 12 pm EDT**

The City of West Point, Georgia is currently seeking sealed proposals for a generator for the West Point Technology Center located at 1122 O.G. Skinner Drive West Point, GA.

The generator must be diesel powered with a quiet run/noise reducing feature and the following output: 150 KW, 400 amps, three phase, and 208/120 volts. The bidder must supply all piping, a concrete slab, all wires relocated as needed, NEMA Type III Rain Type 400 amp, enclosure for the automatic switch gear, all electrical connections in the switch enclosure, all electrical connections inside the Technology Center Building Electrical Room, all electrical connections in any junctions point(s) that may be necessary, and coordinate with the City of West Point Electrical Department any connections inside any transformers as required.

The generator must have a factory warranty with factory trained representative on site during the initial startup phase. The generator must be designed to operate with a low noise tolerance.

The site may be viewed by contacting Sammy Inman, Utility Director, at 706-645-3545 or Milton Smith, Fire Chief, at 706-635-3084.

Proposals are to be turned into the West Point City Hall Attention Kristin Lester at 730 1<sup>st</sup> Avenue P.O. Box 487 West Point, GA 31833 no later than Friday November 11, 2016 at 12 pm EDT. The sealed proposal shall be clearly marked GENERATOR PROPOSAL on the outside as well as the name and address of the person(s) making the proposal. Any contract resulting from a proposal received shall be awarded to the person or entity that submits the best overall proposal as determined by the awarding authority.

The City of West Point, Georgia reserves the right to accept or reject any and all proposals.
