Re: City of West Point Recycle Update

- All residents located on the West Side of River and anyone located North of East 10th Street will have their Recycled Materials picked up bi-weekly starting Thursday, February 4th.
- All residents located on the Southside of East 10th Street and the Southside of Hwy 18 will have their Recycled Materials picked up bi-weekly starting Thursday, February 11th.

The recycling program has been a great success. All customers that want a cart will have a cart by February 11. The crew cannot collect all of the recycling carts in one day requiring the route change. Please contact customer services should you have any issues at 706-645-2226.

**City of West Point**
